SUBMITTER'S GUIDE

1.1 Submitter

The Submitter is able to submit material for a contribution. You are given Submitter access by either the Conference Manager, Session Manager, Contribution Manager or possibly the Session Co-ordinator.

You can access the contributions for which you can submit material by selecting *My contributions* from the menu in the event homepage. This will take you to your submission area and will list the contributions for which you can submit material.

 **Conference 1**

6-10 July 2009 *aaa*

1.2.1 Submitting Material

Once you have clicked on 'Add Material' you are presented with a screen to let you submit.

The image shows a web browser window with a sidebar on the left containing links like '2010 CERN', 'Programme', 'List', 'Index', 'Reference', and 'Contributions'. The main content area is a modal dialog titled 'Upload Material' with a close button (X) in the top right corner. Inside the dialog, there is a tab labeled 'Upload'. Below the tab, there are two radio buttons for 'Location': 'Local file' and 'External resource (hyperlink)'. The 'External resource (hyperlink)' option is selected. Below this is a text input field for 'URL' containing 'www.example.com/mypdf.pdf'. A small example text below the URL reads 'Example: http://www.example.com/YourPDFFile.pdf'. Below the URL field is a text input field for 'Description'. Below the description field is a 'Material type' dropdown menu currently showing 'Slides', followed by the text 'or other'. Below this is a red text prompt: 'You're about to create a new material type. Please select who can access it:'. There are three radio buttons for access: 'Same people as parent Contribution (currently open to everyone, but can change)' (selected), 'Only me and the users I specify', and 'Everyone'. At the bottom of the dialog is a 'Create Resource' button.

You can choose of which material type you want to submit, upload a file, and enter a description or comment.

When the material has been submitted it will appear in the contribution details
